Dear Miss Metring

Thank you for submitting details of your systematic review *Pelvic floor effects of physical therapy techniques using respiratory mechanisms: a systematic review*. to the PROSPERO register.

We regret that from the information you have provided, we have assessed that your review does not meet the current inclusion criteria for PROSPERO. Reviews that have progressed beyond the point of completing data extraction are not eligible for inclusion in PROSPERO. The aim of the register is to capture information at the protocol stage of a review. Full details of the scope of the register can be found in the About pages at <http://www.crd.york.ac.uk/PROSPERO>.

We hope that this will not discourage you from registering your next systematic review at the protocol stage, with PROSPERO.

Comments and feedback on your experience of registering with PROSPERO are welcome at crd-register@york.ac.uk

Yours sincerely

James Christie
